This qualification provides the skills and knowledge for an individual to be complete in project management and/or supervision with the need to apply discretion and judgement. Work would be undertaken in various areas, such as engineering, sales, technology, operations, marketing and business improvement environments. Individuals may have some responsibility for others and provide or hold specific coordination or support responsibilities within a team.

Content

The course is nationally accredited and recognised. It consists of a set of competencies that project management team leaders should possess. These competencies relate to the areas of:

- Managing project scope
- Managing project time
- Managing project risk
- Managing project scope
- Managing project quality
- Managing project procurement.

Purpose

The purpose of the training program is to develop the skills and knowledge of a project manager specialist.

Program Benefits

- Gain nationally recognized qualification
- Improved ability to service customer needs
- Increased project management skills
- Development of reporting skills
- Maximised usage of planning strategies
- Understanding of project management
