**The training you need to excel in Process Manufacturing.**

### Certificate III in Process

**Manufacturing** training provides for production workers, product support workers and those team members who operate across areas of the manufacturing environment. This training also focuses on the ability to handle unforeseen problems that have previously had no formal solution.

### Content

The course is a nationally recognised training program. A total of 21 competencies are required for completion. The training is flexible and can be tailored to your specific needs. The competencies include:

- Safety
- Manual handling
- Quality
- Team work
- Environmental issues
- Product/production
- Workplace procedures
- Loading goods

### Purpose

The purpose of the program is to upskill you staff by giving them a competitive edge by converting your teams in process manufacturing professionals.

### Program Benefits

- Reduced costs
- Increased quality
- Reduced lead times
- Reduced inventories
- Reduction of waste
- Improved communications
- Increased responsiveness
- Latest OHS standards
- Increased profitability
- More efficient employees

### Units covered

- MSACMT251A (core) Apply quality standards
- MSAPMOHS200A (core) Work safely
- MSAPMSUP200A (core) Achieve work outcomes
- MSAPMSUP210A (core) Process and record information
- MSACMT221A Apply Just In Time Procedures
- MSACMT280A Undertake root cause analysis
- MSAPMSUP309A Maintain and organise workplace records
